4th April, 2019 Term 1 Week 10

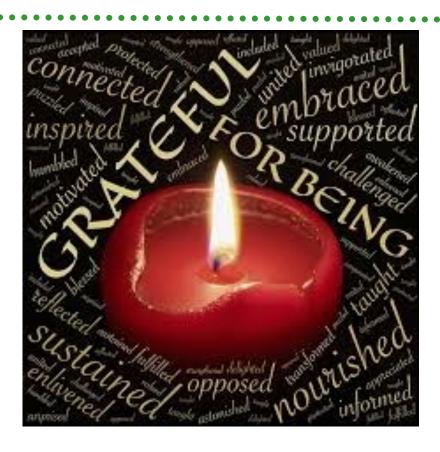

Dear Parents

A number of weeks ago the staff were lead in prayer by Mr Baird. The theme of the morning prayer was 'Gratitude'. I have always been a big believer that gratitude is one of the most powerful characteristics a person can have. The Google definition of gratitude is: 'the quality of being thankful; readiness to show appreciation for and to return kindness'. I feel that the word 'readiness' is key here as it shows that a person is always ready to see the world through the eyes of one that appreciates all that is in their lives - before they look at what they lack. Sometimes we do not see how lucky we are and in many ways we lose sight of the joy of what simple things bring us.

Another thought was expressed by one of our priests last year when he said that gratitude is the healer of all sins. I understood what he meant here and I believe this to be very true; it is hard to be unforgiving, lack compassion, mean or spiteful or vindictive when one is grateful.

The closing reflection, the teachers shared with us has been included in this newsletter. Some simple but profound thoughts.

God Bless you and your family Bernadette Fabri Principal

GRATITUDE

"You think that this is just another day in your life?

It's not just another day.

It's the one day that is given to you – today.

It's given to you. It's a gift.

It's the only gift that you have right now and the only appropriate response is gratefulness.

If you do nothing else but to cultivate that response to the great gift that this unique day is...

If you learn to respond as if it were the first day in your life and the very last day then you will have spent this day very well.

Begin by opening your eyes, and be surprised that you have eyes you can open.

That incredible array of colours that is constantly offered to us for our pure enjoyment.

Look at the sky.

We so rarely look at the sky.

We so rarely note how different it is from moment to moment, with clouds coming and going.

We just think of the weather, and even of the weather we don't think of all the many nuances of weather.

We just think of "good weather" and "bad weather."

This day, right now, with its unique weather, maybe a kind that will never exactly come again in that form.

The formation of clouds in the sky will never be the same as it is right now.

Open your eyes. Look at that.

Look at the faces of people whom you meet.

Each one has an incredible story behind their face,
a story that you could never fully fathom.

Not only their own story, but the story of their ancestors.

We all go back so far.

And in this present moment on this day, all the people you meet, all that life from generations and from so many places all over the world flows together and meets you here like a life giving water if you only open your heart and drink.

Open your heart to the incredible gifts
that civilisation gives to us.
You flip a switch and there is electric light.
You turn a faucet and there is warm water,
and cold water, and drinkable water.
It's a gift that millions and millions in the world
will never experience.
So these are just a few of an enormous number of gifts
to which you can open your heart.
And so our wish today is to open your heart

That everyone you will meet on this day will be blessed by you, just by your eyes, by your smile, by your touch, just by your presence.

Let the gratefulness overflow into blessing all around you.

Then it will REALLY be a good day."

to all these blessings and let them flow through you.

Condolences

We wish to extend our deepest sympathy to the Adaymy (Victoria KA) family on the passing of her Grandfather. Please keep the family in your prayers.

CHANGE TO MORNING GATE OPENING TIMES - 8.20am TO BEGIN FROM MONDAY 29TH APRIL

Dear Parents and Carers,

Thank you for your feedback with regard to the notification of the new opening time for the Ross Street Gate. It was good that you took the time to speak to me personally or email the school with your thoughts. I have certainly taken your concerns seriously and indeed share some of your concerns. The school is committed to finding a reasonable solution that will both ensure the safety of all children on site and to assist families to get in and out of the area effectively. I have continued to make some inquiries to see if we can come up with a solution that works well for all. I will keep you posted. If you have any other feedback/ideas for solutions concerning this matter please do not hesitate to contact me through the school office 8832 4600.

Thanking you always for your interest and support

Bernadette Fabri

Frequently Asked Questions

Can students use paper to work out or plan answers?

Students can use paper to work out or plan their answers for the conventions of language, writing and numeracy tests. This paper is collected by a test administrator at the end of the test.

If a student is sick, can they complete the tests online at home?

As with the paper NAPLAN, students who are sick cannot complete NAPLAN at home. Students who are absent on the day of testing may be able to complete catch-up tests if they return to school within the NAPLAN test window.

Will students with limited keyboard skills be disadvantaged in the writing test?

The writing test is not about handwriting skills and NAPLAN Online is not about keyboarding skills. There are variations in how fast and well a student can type, just as there are variations in how fast and well a student can write by hand.

ACARA research shows that online writing is similar to handwriting in terms of the quality of writing produced by students at each year level. It also shows that students generally appreciate the use of online features such as editing tools (noting that online features such as grammar and spell-check are disabled during NAPLAN testing).

Students do not have to be able to touch type to successfully complete the test.
